## Celebuzz's 8 Favorite Things of the Week – July 16, 2016

**Go Raw** (\$2.99 per bar) - As someone who never has time to eat a proper breakfast, I'm always on the lookout for things that I can grab and munch while commuting to work. These new protein bars hits the spot. Solely sprouted from watermelon seeds and sweetened only with organic dates, each nutritious bar packs 12 grams of protein with healthy fats and fibers into delicious flavors like Cinnamon Spice, Zesty Lemon and – my two personal favorites – Dark Chocolate and Mint Chocolate. You can get the girl eat healthy, but you can't make the girl get rid of her love for chocolate! – Gabi
